

Genes, Peoples and Languages

Monday February 11, 2002

- 8:30–9:20 *Check-In/Light Breakfast (Hosted by IPAM)*
- 9:20–9:30 *Welcome and Opening Remarks*
- 9:30–10:30 **Alan Walker** (Pennsylvania State University)
Early hominid life history
- 10:30–11:00 *Coffee Break*
- 11:00–12:00 **Wen-Hsiung Li** (University of Chicago)
World-wide pattern of DNA polymorphism and its implications for human evolution
- 12:00–1:30 *Lunch (on your own)*
- 1:30–2:30 **Magnus Nordborg** (University of Southern California)
Genealogical trees, coalescent theory, and the analysis of genetic polymorphism data
- 2:30–3:30 **Joanna Mountain** (Stanford University)
Genetic diversity and the antiquity of click languages
- 3:30–4:00 *Coffee Break*
- 4:00–5:30 **Luca Cavalli-Sforza** (Stanford University)
Genes, Peoples and Languages
- 5:30–7:00 *Wine/Cheese Reception (Hosted by IPAM)*

Tuesday February 12, 2002

- 8:30–9:30 *Continental Breakfast*
- 9:30–10:30 **Anna Di Rienzo** (University of Chicago)
The signatures of population history and natural selection on human genome variation
- 10:30–11:00 *Coffee Break*
- 11:00–12:00 **Noah Rosenberg** (University of Southern California)
The Relationship between coalescence times and population divergence times
- 12:00–1:30 *Lunch (on your own)*
- 1:30–2:30 **Daniel Falush** (Max Planck Institute for Infection Biology)
Traces of human migrations in helicobacter pylori populations
- 2:30–3:30 **Joseph Hacia** (University of Southern California)
The Use of DNA Microarrays to Study Non-Human Primate Genetics
- 3:30–4:00 *Coffee Break*
- 4:00–5:00 *Round Table Discussion*

Wednesday February 13, 2002

- 8:30–9:30 *Continental Breakfast*
- 9:30–10:30 **Daniel Nettle** (Open University)
Genetic and linguistic diversity: The view from linguistics
- 10:30–11:00 *Coffee Break*
- 11:00–12:00 **Charles Oxnard** (University of Western Australia)
Modern Human Origins: Implications from Theoretical Models of Fossilisation, Migration and Interbreeding
- 12:00–1:30 *Lunch (on your own)*

Thursday February 14, 2002

- 8:30–9:30 *Continental Breakfast*
- 9:30–10:30 **Jean-Jacques Hublin** (Université Bordeaux)
The rise of the Neandertals: another bottle-necking?
- 10:30–11:00 *Coffee Break*
- 11:00–12:00 **Marta Mirazón Lahr** (Cambridge University)
Extinction in recent human evolution
- 12:00–1:30 *Lunch (on your own)*
- 1:30–2:30 **Susan Holmes** (Stanford University)
Comparing trees, geometry and applications.
- 2:30–3:30 **Robert Martin** (The Field Museum)
New Light on the Dates of Primate Origins and Divergence
- 3:30–4:00 *Coffee Break*
- 4:00–5:00 *Round Table Discussion*
- 5:00–5:30 *Social (Refreshments available)*
- 5:30–7:00 *Conference Dinner-BBQ*

Friday February 15, 2002

- 8:30–9:30 *Continental Breakfast*
- 9:30–10:30 **Richard Klein** (Stanford University)
Modern Human Origins
- 10:30–11:00 *Coffee Break*
- 11:00–12:00 **Henry Harpending** (University of Utah)
A Wave of Advance Can Generate a Bottleneck
- 12:00–12:00 *Conclusion*
